SUMMARY

Industrial engineering M.S. student who combines **LLM-based applications** with **AI workflow automation**. At Zoustec, shipped **51 n8n workflows** with an LLM quality check and automatic retries, reaching **97.1% success across 128 posts**; in an NSTC-funded project, built an LLM code-annotation workflow for **code review**. Seeking to apply LLM fine-tuning, AI agents and workflow automation to practical AI products.

EDUCATION

Feng Chia University | M.S., Industrial Engineering and Systems Management Expected Jul 2027

- Relevant coursework: Intro to AI; Manufacturing Data Science; Decision Support Systems

Feng Chia University | B.S., Industrial Engineering and Systems Management Sep 2022 – Jun 2026

- **GPA: 3.9 / 4.3** | 4+1 Bachelor's–Master's Program

EXPERIENCE

AI Workflow Research Intern – ZOUSTEC TECHNOLOGIES CO., LTD. Jul 2026 – Sep 2026

Project: AI-Powered Marketing Content Automation | n8n, JavaScript, OpenAI / Gemini APIs

- Built and deployed **51 n8n workflows** that generate, review and publish content to 4 channels through **Meta APIs** (Facebook Pages, Instagram Graph, Threads), reaching **97.1% success across 128 posts**.
- Engineered generation and review prompts with structured JSON output, and added an **LLM quality check** that sends weak drafts back for rewriting, plus **automatic retries** for timeouts and rate-limit errors.
- Debugged image-model text errors (misspelled Chinese, drifting layouts) and rebuilt Instagram carousels with HTML templates, **cutting render time 55%**.
- Wrote a handover guide (credential expiry, token renewal, to-dos) so a colleague could run the system.

Research Assistant – NSTC-Funded Project, Feng Chia University Aug 2025 – Aug 2026

Project: Code Annotation Generation using Myers Diff and LLaMA 3 | Python

- Built an automated code-change annotation workflow that supports **code review** and software maintenance, combining the Myers diff algorithm, deep learning change classification and **LLaMA 3**.
- Built the Python data pipeline for **GitHub** code changes: before-and-after code extraction, diff block identification and structured dataset preparation for model training.

PROJECTS

An Intelligent Question-Answering System based on Knowledge Distillation and User Intent Recognition Technologies | *Python, PyTorch, Unsloth* *Sep 2025 – Present*

- Distilled a fine-tuned GPT-OSS-20B into a lightweight BiLSTM using soft labels for **73,828 sentences**, raising intent classification accuracy from **88.13% to 92.76%**.
- Cleaned and formatted **69,476 QA pairs**, fine-tuned Gemma 4-E4B with QLoRA and Unsloth, and built an evaluation pipeline (BLEU, ROUGE, METEOR, BERTScore) to compare generated answers.

Personalized Marketing Copy Generation with LLaMA 3 | *PyTorch, SQL Server* *Sep 2024 – Dec 2025*

- Fine-tuned **LLaMA 3 8B** with **4-bit QLoRA** on a single 16GB RTX 4080 under Linux, training 30K steps on **78K samples** augmented via the GPT-4o API.
- Reached **BLEU-4 14.44** and **METEOR 23.62**, beating a published baseline by **27%** and **64%**, and integrated the model into a JSP and SQL Server web system.

SKILLS

LLM & Agents: Prompt engineering, structured output, LLM quality checks, n8n, OpenAI / Gemini APIs
AI Coding & Dev Tools: Claude Code (custom skills), Git, Linux (Ubuntu), FastAPI, Playwright, SQL Server
Languages: Python, JavaScript, SQL, R
ML / NLP: PyTorch, Transformers, QLoRA, Unsloth, LLaMA 3, Gemma, BERT, knowledge distillation

CONFERENCE EXPERIENCE

- **Best Paper Award – Big Data Technology and Applications Track, 2025 CIIE Annual Conference**
  A Personalized Marketing Copy Generation System Based on LLaMA 3 Model
- **Presentation Accepted, ICCCM 2026** (14th Int'l Conf. on Computer and Communications Management)
  An Objective Essay Scoring and Commentary Generation System with LSTM Model
- **Paper Accepted, 2026 CIIE Annual Conference**
  An Intelligent Question-Answering System Based on Knowledge Distillation and User Intent Recognition Technologies

COMPETITION AWARDS

Project: *A Personalized Marketing Copy Generation System Based on LLaMA 3 Model — 4 awards below*

- **1st Place — Service Systems & Technology Management Track**
  2026 CIIE Undergraduate Project Paper & Technical Report Competition | Jul 2026
- **2nd Place — Undergraduate Capstone Project Competition**
  Dept. of Industrial Engineering and Systems Management, Feng Chia University | May 2026
- **3rd Place — Artificial Intelligence & Big Data Analytics Track**
  2026 ORSTW Collegiate Project Competition | Jun 2026
- **Honorable Award — Industrial Engineering Division**
  2026 CIE Student Engineering Papers Competition | Jul 2026

TEACHING EXPERIENCE

Teaching Assistant – Database Management System and Design Feb 2025 – Present

- Guided students in relational schema design, SQL queries, normalization, and database management.

Teaching Assistant – Decision & Data Analysis Sep 2025 – Jan 2026

- Guided students in R-based data preprocessing, exploratory analysis, model building, and evaluation.

ACADEMIC HONORS

- **Feng Chia University Honors Student, Class of 2026**
  Feng Chia University | Jun 2026
- **Outstanding Performance in Decision & Data Analysis**
  Feng Chia University | Dec 2025
- **Outstanding Performance in Database Design**
  Feng Chia University | Dec 2024

CERTIFICATIONS & LANGUAGE

- **Microsoft AI & ML Engineering Certificate**
  Microsoft / Coursera | Apr 2026
- **AIA Talent Certification in AI Literacy (AIATCL)**
  Taiwan AI Academy | Score: 95 | Apr 2026 – Apr 2028
- **Google Data Analytics Professional Certificate**
  Google / Coursera | Mar 2026
- **TOEIC Listening & Reading**
  ETS | Score: 845

EXTRA ACTIVITIES

Honors Program Experience Sharing Session – *Invited Student Speaker* Sep 2026

- Spoke to around **100 first-year students** as an Honors Student, sharing course planning, competition experience, and how to get started on research projects.

IESM Student Association, Feng Chia University – *Activity Team Manager*

- Coordinated department events with **100+ participants** by managing workflows, staff assignments, venue setup, and on-site operations, demonstrating leadership, communication, and problem-solving skills.
