My Portfolio: <https://my-portfolio-three-sooty-77.vercel.app>

Industrial Engineering student on the 4+1 master's track who applies AI and data analytics to make processes faster and more reliable. Automated a content production process with 51 workflows, cutting cycle time from 30 to 2 minutes per post at a 97.1% run success rate, and built ML models reaching 96.22% accuracy. Works across the full data chain: SQL, statistical testing, data cleaning, model training, and evaluation.

PROJECTS

A Personalized Marketing Copy Generation System based on LLaMA 3 Model

- Built a personalized marketing copy generation system to reduce generic product descriptions by fine-tuning LLaMA 3 8B with QLoRA on **78K marketing text samples** using Python.
- Evaluated generation quality using **BLEU, METEOR, and human assessment**, achieving **BLEU-3 18.92, BLEU-4 14.44, METEOR 23.62**, and human evaluation scores of **0.89 fluency, 0.87 diversity, 0.80 relevance**, and **0.85 attractiveness**.

Intent Classification & QA Generation with Gemma 4 and Knowledge Distillation | Ongoing

- Developed an end-to-end NLP pipeline for **intent classification and QA generation** using **BERT-BiLSTM, Gemma 4, and teacher-student knowledge distillation**.
 - Achieved **96.22% Accuracy** and **96.20% F1-score** in intent classification by combining deep learning models with structured data preprocessing and model evaluation.
 - Cleaned, filtered, and formatted **69,477 high-quality QA pairs**, then fine-tuned Gemma 4-E4B with QLoRA and Unsloth to support domain-specific response generation.
-

RESEARCH EXPERIENCE

Research Assistant – Code Annotation Generation using Myers Diff and LLaMA 3 Aug 2025 – Aug 2026

- Developed an automated code-change annotation workflow by integrating Myers Diff Algorithm, deep learning classification, and LLaMA 3 to support code review and software maintenance tasks.
 - Processed GitHub code-change data using Python, including before-and-after code extraction, diff block identification, and structured dataset preparation for model training.
-

WORK EXPERIENCE

AI Workflow Research Intern – ZOUSTEC TECHNOLOGIES CO., LTD.

Jul 2026 – Present

Project: AI-Powered Marketing Content Automation

- Automated an end-to-end content production process with **51 n8n workflows** (generate, AI-review, publish to 4 channels): cycle time **30 → 2 min** per post, **97.1%** run success rate, **128 posts** shipped.
 - Built a **data-driven feedback loop**: weekly GA4 funnel analysis, validated with Fisher's exact test and Benjamini-Hochberg correction, feeds human-approved improvements into the next cycle.
 - Grew HReasy's Threads account to **22,761 views** in 30 days; rebuilt IG carousels with HTML templates to remove text and layout errors from image models.
-

TEACHING EXPERIENCE

Teaching Assistant – Decision & Data Analysis

Sep 2025 – Jan 2026

Guided students in R-based data preprocessing, exploratory analysis, model building, and evaluation.

Teaching Assistant – Database Management System and Design

Feb 2025 – Present

Guided students in relational schema design, SQL queries, normalization, and database management.

EDUCATION

Feng Chia University | B.S., Industrial Engineering and Systems Management

Sep 2022 – Jun 2026

GPA: **3.9 / 4.3** | 4+1 Bachelor's–Master's Program, M.S. expected Jun 2027

SKILLS

Python, SQL, R, Machine Learning, Statistics, PyTorch, NLP, LLM Fine-tuning, n8n, Git, Linux, Supabase

CONFERENCE EXPERIENCE

- **Best Paper Award – Big Data Technology and Applications Track, 2025 CIIE Annual Conference**
A Personalized Marketing Copy Generation System Based on LLaMA 3 Model
 - **Published Paper, The 14th International Conference on Computer and Communications Management (ICCCM 2026)**
An Objective Essay Scoring And Commentary Generation System With LSTM Model
-

COMPETITION AWARDS

Project: *A Personalized Marketing Copy Generation System Based on LLaMA 3 Model* — awards below

- **1st Place — Service Systems & Technology Management Track**
2026 CIIE Undergraduate Project Paper & Technical Report Competition | Jul. 2026
 - **2nd Place — Undergraduate Capstone Project Competition**
Dept. of Industrial Engineering and Systems Management, Feng Chia University | May 2026
 - **3rd Place — Artificial Intelligence & Big Data Analytics Track**
2026 ORSTW Collegiate Project Competition | Jun. 2026
 - **Honorable Award — Industrial Engineering Division**
2026 CIE Student Engineering Papers Competition | Jul. 2026
-

ACADEMIC HONORS

- **Outstanding Performance in Database Design**
Feng Chia University | Dec. 2024
 - **Outstanding Performance in Decision & Data Analysis**
Feng Chia University | Dec. 2025
 - **Feng Chia University Honors Student, Class of 2026**
Feng Chia University | Jun. 2026
-

CERTIFICATIONS & LANGUAGE

- **Google Data Analytics Professional Certificate**
Google / Coursera | Mar. 2026
 - **Microsoft AI & ML Engineering Certificate**
Microsoft / Coursera | Apr. 2026
 - **AIA Talent Certification in AI Literacy (AIATCL)**
Taiwan AI Academy | Score: 95 | Apr. 2026 – Apr. 2028
 - **TOEIC Listening & Reading**
ETS | Score: 845
-

EXTRA ACTIVITIES

Industrial Engineering and Systems Management Student Association

Activity Team Manager | Feng Chia University

- Coordinated department events with **100+ participants** by managing workflows, staff assignments, venue setup, and on-site operations, demonstrating leadership, communication, and problem-solving skills.

Honors Program Experience Sharing Session

Invited Student Speaker | Feng Chia University | Sep. 2026

- Spoke to around **100 first-year students** as an Honors Student, sharing course planning, competition experience, and how to get started on research projects.
